

# 1. Portrait of a Man (1862-1934)

## His work for peace

**"Protectionism and militarism, pauperism and socialism, the monstrous children of the error and the spirit of rapine or violence, mating in turn, re-engendering, increasing, enchaining and dragging European humanity towards the abyss... Protectionism is the socialism of the rich, socialism the protectionism of the poor."**

**Henri Lambert (April 1913)**
